Care Services: 2015-2016 Overview

The Care Services department ensures that people living with HIV/AIDS have access to the services they need to maintain optimal health and live as independently and safely as possible. Care Services expanded in FY 15/16 through increased Ryan White funds. SAAF worked with the Arizona Department of Health Services to increase services in the following key areas: Housing Case Management, Psychosocial Support Services, Housing, and Early Intervention Services. As a result, an additional 15 staff positions were created and will be housed at SAAF's main office and an additional office in South Tucson scheduled to open in the Fall of 2016. SAAF will be further expanding statewide by hiring staff in Flagstaff, AZ and Yuma, AZ in the Spring of 2017. SAAF was also able to expand our HIV testing and community education efforts as a result of this Ryan White expansion. We are also providing crisis intervention, case management and support to LGBT community members experiencing violence and harassment through our Anti-Violence Project. Care Services programs are grouped into three primary areas: case management, support services, and housing services.

Once again, SAAF provided services to the greatest number of people in its history, serving 1296 people living with HIV/AIDS and their household members. Of these, 156 were new clients to SAAF.

CARE SERVICES

Of all the people served last year, 97% were low income, with 54% living below the poverty level. Due to the ongoing economic conditions and the stress of living with limited incomes, the demand remained high for basic support services including housing, food, transportation, emergency rent and utility assistance, as well as essential medical services including dental care and medications assistance.

Once again, SAAF provided services to the greatest number of people in its history, serving 1,296 people living with HIV/AIDS and their household members. Of these, 156 were new clients to SAAF.

Case Management Services

- Case Management provided needs assessments, the development of care and action plans, and provision of or referral to necessary services.
- Peer Counseling provided people living with HIV/AIDS with a caring person living with or deeply affected by HIV/AIDS, from whom they can receive support and information.
- Case Management was provided through our Anti-Violence Project for LGBTQ survivors of violence. These services include safety planning, goal planning, basic needs, shelter, advocacy, and support navigating the legal system.
- Case Management was also provided to chronically homeless persons in a new program component serving chronically homeless persons regardless of their HIV status.

Support Services

- Complementary Therapies
- Dental Services (provided statewide except for Maricopa and Pinal Counties)
- Food and Nutrition Services, including the Food for Life Program and the Food Pantry, Ensure distribution, Harvest Days, and Emergency Meals
- Holiday Project
- Medication Benefits Management for those enrolled through the Affordable Care Act Federally Facilitated Marketplace (provided statewide)
- Medical Benefits cost sharing assistance for those enrolled in statewide ADAP Assist
- Medications Assistance
- Support Groups
- Transportation Services
- Wellness and Buyers' Club
- Clothing Vouchers
- Hygiene/Cleaning Supplies
- Other personal support services

Housing Services

- 83 units owned by SAAF at seven different locations
- 242 households in subsidized rental units in the community. 150 of these were transition housing funded households
- 15 homeless preference Section 8 Vouchers
- 340 total households served
- 470 total persons served
- Move-in assistance and short-term financial assistance to help pay rent, mortgage, and utility bills

Prevention programs conducted outreach and educational events, making over 38,000 contacts.

Prevention: 2015-2016 Overview

SAAF's Prevention Department creates healthier communities through innovative education, training, and outreach services to reduce the transmission of HIV, Hepatitis, and sexually-transmitted infections by using safe and supportive approaches. Prevention services targeted populations at increased

risk of HIV infection or transmission, Hepatitis C infection, substance use, sexual assault, and suicide. Communities served included gay/bisexual men and other men who have sex with men (MSM); men and women who inject drugs, have a history of injection drug use, are currently in drug treatment, and/or have a history of incarceration; youth, including young people of color, LGBTQ youth, and adjudicated youth; and people living with HIV/AIDS.

SAAF provided effective behavioral interventions, public health strategies and health education and risk-reduction activities

that included outreach, individual-level interventions, group-level interventions, community-level interventions, health education/public information, and social media strategies.

Prevention programs conducted outreach and educational events, making over 38,000 contacts; over 100 individual-level interventions were conducted with people living with HIV/AIDS and others at high risk; over 1,000 individuals accessed syringe services with over 2,000 visits; over 60 group-level interventions were conducted reaching close to 1,000 individuals; and approximately 300,000 condoms and other safer-sex materials were distributed in Tucson.

HIV Counseling and Testing was provided by trained SAAF staff. Testing was available at SAAF, behavioral health agencies, local bars, Walgreens locations, UofA, and at community events throughout the year. Confidential HIV testing using an HIV Rapid Test was available. Last year approximately 1,729 people received HIV rapid testing services at SAAF, Behavioral Health Agencies in Pinal County, community locations including three Walgreens locations, and at mobile-testing events. Hepatitis C rapid testing was also made available to people who inject drugs or have a history of injection drug use. Over 540 Hepatitis C rapid tests were conducted at SAAF and in collaboration with behavioral health organizations in Tucson.
